A cookie is a small file which asks permission to be placed on your computer's hard drive. Once you agree, the file is added and the cookie helps analyse web traffic or lets you know when you visit a particular site. Cookies allow web applications to respond to you as an individual. The web application can tailor its operations to your needs, likes and dislikes by gathering and remembering information about your preferences.

We use traffic log cookies to identify which pages are being used. This helps us analyse data about webpage traffic and improve our website in order to tailor it to customer needs. We only use this information for statistical analysis purposes and then the data is removed from the system.

Overall, cookies help us provide you with a better website by enabling us to monitor which pages you find useful and which you do not. A cookie in no way gives us access to your computer or any information about you, other than the data you choose to share with us.

You can choose to accept or decline cookies. Most web browsers automatically accept cookies, but you can usually modify your browser setting to decline cookies if you prefer. This may prevent you from taking full advantage of the website.

If you wish to change your Cookie settings you can do this from the 'Tools' menu in your browser (usually under security settings). By doing so you may impede your usage of this, and other websites.

#### Cookies used on this website

We only use two types of Cookie on this website which are: "Session" & "Persistent"

#### Session cookies

Session cookies last only for the duration of your visit and are deleted when you close your browser. These facilitate various tasks such as allowing a website to identify that a user of a particular device is navigating from page to page, supporting website security or basic functionality.

#### Persistent cookies

Persistent cookies last after you have closed your browser, and allow a website to remember your actions and preferences for when you next return. Sometimes persistent cookies are used by websites to provide targeted advertising based upon the browsing history of the device but not on this website!

### **Web Genie Media (The London Student Group)**

Like most websites, this website uses cookies to capture certain information about the site's users. Cookies are small text files that are placed on your computer by websites that you visit. They are widely used in order to make websites work, or work more efficiently, as well as to provide information to the owners of the site.

If you continue to use this site without changing your settings, we'll assume that you are happy to receive all cookies on this website. However, if you would like general information about cookies and how to disable them, please visit <http://www.allaboutcookies.org>. To prevent Google Analytics cookies being set, you may install the [Google Analytics Opt-Out Browser Add-On](#).

When you visit this website we may or may not:

- Use the Facebook, Twitter, Linked In and Add This tools, those sites set a variety of cookies.
- set Google Analytics cookies to measure the number of visitors, to see how visitors navigate the site and to see which resources they access. This helps us to develop new content and to improve the way the website works;
